CONFERENCE VENUE

The conference will be hosted in the upscale JW Marriott Bucharest Grand Hotel, conveniently situated downtown. Inaugurated in 2000, the hotel exudes an essence of European elegance and comfort, providing excellent facilities for any large-scale event. The convention center includes 12 reconfigurable rooms adding up to a total of 2044 m^2. The hotel is located next to the Parliament Palace, the largest building in Europe and the second largest in the world, right after the Pentagon.

The city of Bucharest is the capital of Romania and its most important cultural, business and financial center. A young and dynamic city, Bucharest has an eclectic architecture, which provides a view into its history. A mixture of medieval, neoclassical and Art Nouveau buildings, the city center also boasts recently built contemporary structures such as skyscrapers and office buildings. The city's majestic architecture and the sophistication of its elite earned Bucharest the nickname of "Little Paris" at the beginning of the 20th century.

Bucharest is easily accessible from all major European cities and with only one-stop connections from Asia and the Americas. The city benefits from a modern international airport and an extensive public transport system that is one of the largest in Europe.

Romania is the largest country in southeastern Europe and a member of the European Union since January 2007. The country is best known worldwide for its beautiful natural landscapes and UNESCO Heritage sites, such as The Danube Delta, the Monasteries of Moldova and the Transylvanian medieval cities. Also known as the mysterious land of the Legend of Dracula, Romania is a whole of fascinating experiences where Authentic, Natural and Cultural are the words that best capture its essence and make up an intriguing country rich in history, arts and scenic beauty.

ORGANIZATION COMMITTEE

Conference Chairs
Michael Neuhäuser, Infineon Technologies Romania & CO SCS
Corneliu Burileanu, University "Politehnica" of Bucharest
Ion Bogdan, TU Iasi

ESSCIRC Chairs
Andrei Vladimirescu, Univ. of California at Berkeley & Institut Supérieur d'Electronique de Paris
Liviu Goras, TU Iasi

ESSDERC Chairs
Dan Dascalu, IMT Bucharest
Adrian Mihai Ionescu, Ecole Polytechnique Fédérale de Lausanne

SCHEDULE AT A GLANCE

Monday, 16 Sept 2013	Tutorials
Tuesday, 17 Sept 2013	Conference opening Technical sessions Welcome reception
Wednesday, 18 Sept 2013	Technical sessions Gala dinner
Thursday, 19 Sept 2013	Technical sessions Farewell
Friday, 20 Sept 2013	Workshops

KEYDATES

Extended Submission Deadline	25 April 2013
Notification of acceptance	7 June 2013

Final Call for Papers

esscirc 2013

39th European Solid-State Circuits Conference (ESSCIRC)

16-20 September 2013
Bucharest, Romania

Extended Submission Deadline 25th April 2013

Electronic submission

http://www.esscirc.org

IEEE Solid State Circuits Society

GENERAL PURPOSE OF THE CONFERENCE

The aim of ESSCIRC conferences is to provide an annual European forum for the presentation and discussion of recent advances in solid-state devices and circuits. ESSCIRC and ESSDERC (sister conference) are governed by a single Steering Committee. The increasing level of integration for system-on-chip design made available by advances in silicon technology is stimulating more than ever before the need for deeper interaction among technologists, device experts and circuits and system designers. While keeping separate Technical Program Committees, ESSCIRC and ESSDERC will share Plenary Keynote Presentations and Joint Sessions bridging both communities. Attendees registered for either conference are encouraged to attend any of the scheduled parallel sessions. The main themes for original contributions to be submitted to ESSCIRC 2013 include but are not limited to the following:

Analog Circuits
Amplification stages, Power amplifiers for audio, CT and DT filters, SC circuits, Comparators, Nonlinear circuits, Voltage/current references, HV circuits

Data Converters
Nyquist rate converters, Oversampled ADC and DAC, Sample-Hold circuits, ADC and DAC calibration/error correction circuits, Adaptative and smart data converters

RF and mm Wave
RF/IF/analog baseband circuits, LNAs, Mixers, Power Amplifiers, IF amplifiers, Power detectors, Modulators/demodulators, VCOs, PLLs, Frequency synthesizers, Frequency dividers, Integrated passive components

Wireless and Wireline Communication Circuits and Systems
Receivers/transmitters/transceivers for wireless systems, Base station and handsets, Advanced modulation systems, TV/radio/satellite receivers, Radars

Sensors, Imagers and MEMs
Sensor subsystems and interfaces, Accelerometers, Temperature sensing, Imaging and smart imaging chips, AMOLED, MEMs subsystems, RF MEMs

Digital Circuits
Digital circuit techniques, I/O and inter-chip communication, Reconfigurable digital circuits, Clocking, Arithmetic building blocks

Processors, Memories and Interfaces
Memories, Microprocessors, DSPs, Gigabit serial links, Clock and data recovery, Equalization, Memory interfacing, Bus interfacing, Multi-rate Ics

Bio-Medical and Bio-Electronic Circuits and Systems
Implantable electronic ICs, Bio-electronic integrated systems, Bio-medical imagers, Bio-MEMs integrated systems, Lab-on-chip, Wireless body area networks

Circuits & Systems in Emerging Technology
Digital, analog and mixed-signal circuits using emerging devices such as: Multigate MOSFETs, FinFETs, Flexible electronic components, Organic transistors, Nanowires/nanotubes, Quantum devices

Power Management and energy Scavenging
Energy transducers, Power regulators, DC-DC converters, LDOs, Boost converters, Buck converters, LED drivers, Sequencers and supervisors, Green circuits

PLENARY TALKS

"Automotive electronics and energy efficiency"
Reinhard Ploss, CEO Infineon
"FinFETs: Technology and Circuit Design Challenges"
Min-Reng Lin, Global Foundries
"Carbon electronics for 2020"
Wilfried Haensch, IBM
"Nanometer-scale InGaAs Field-Effect Transistors for THz and CMOS technologies"
J. del Alamo, MIT
"MEMS for automotive and consumer electronics"
Stefan Finkbeiner, Bosch
"Cyborg insects and other things: building interfaces between the synthetic and the multicellular"
M. Maharbiz, UC Berkeley

TUTORIALS AND WORKSHOPS

A tutorial Day will be organized on Monday, 16 September 2013 and a Workshop Day will take place on Friday, 20 September 2013

BEST PAPER AWARDS

Papers presented at the conference will be considered for the Best Paper Award and for the Best "Young Scientist" Paper Award. The selection will be based on the results of the paper selection process and the judgment of the conference participants. The award delivery will take place at ESSCIRC 2014.

PAPER SUBMISSION

The 2013 ESSCIRC conference will allow only electronic submission of papers in PDF format. Prospective authors must submit their paper(s) via the conference website. Papers must be submitted in the final format to be published in the proceedings. They must not exceed four A4 pages with all illustrations and references included. The size of the PDF files submitted must not exceed 2MB. Manuscript guidelines as well as instructions on how to submit electronically will be available on the conference website.

http://www.esscirc.org

All paper submissions must be received by 25 April 2013.

After selection of papers, the authors will be informed about the decision of the Technical Program Committee by e-mail by the beginning of June 2013. At the same time, the complete program will be published on the conference website.

The working language of the conference is English, which must also be used for all presentations and printed materials.

REVIEW PROCESS

Papers submitted for review must clearly state:

The purpose of the work
How and to what extent it advances the state-of-the-art
Specific results and their impact

The degree to which the paper deals with the above issues is fundamental to a successful review and selection of the paper. The most frequent cause of rejections is a lack of new results. Only work that has not been previously published will be considered. Submission of a paper for review and subsequent acceptance is considered by the committee as a commitment that the work will not be placed in the public domain prior to the conference.

ESSCIRC / ESSDERC STEERING COMMITTEE

Sorin Cristoloveanu (Chair)	ENSERG-IMEP
Ralf Brederlow (Vice-Chair)	Texas Instruments
Cor Claeys (Executive secretary)	IMEC
Roberto Bez	Micron
Klaas Bult	Broadcom Corporation
Franz Dielacher	Infineon
Athanasios Dimoulas	NCSR Demokritos
Christian Enz	CSEM
Stephen Hall	University of Liverpool
Kazunari Ishimaru	Toshiba America Elect. Comp.
Carlos Mazure	SOITEC
Gaudenzio Meneghesso	University of Padova
Doris Schmitt-Landsiedel	Technical University Munich
Thomas Skotnicki	STMicroelectronics
Hannu Tenhunen	KTH Stockholm
Roland Thewes	TU Berlin
